Automotive project wins 2009 Noblanc Award

date of publication > 16-December-2009

The 2009 Jean-Pierre Noblanc Award for Excellence went to the MEDEA+ 2T204 ELIAS project for achievements in accelerated test and simulation methodologies to speed up the introduction of robust new electronic components for the automotive industry. The award honours the most innovative and sustainable project carried out in MEDEA+ and was presented during the European Nanoelectronics Forum in the Netherlands.
